7 WHEREAS, the Common Council now finds that the fees  
8 charged for services rendered by the Sewage Works owned and  
9 operated by the City of Fort Wayne are not sufficient to maintain

12 said fees are not sufficient to pay all expenses to operate and  
13 maintain the Works; to pay interest charges on bonds or other  
14 obligations; to provide the sinking fund required for revenue  
15 bonds heretofore issued; to provide adequate money to be used as  
16 working capital; to provide adequate money for improving and  
17 replacing the Works; and to provide the amount of money sufficient  
18 to compensate the City for the property taxes that would be paid  
19 on the Sewage Works if the Sewage Works were privately owned;

20 NOW, THEREFORE, BE IT ORDAINED BY THE COMMON COUNCIL  
21 OF THE CITY OF FORT WAYNE, INDIANA:

4 suspended solids, and phosphorus per year, with the unit charges  
5 currently in effect from which the Board shall determine whether  
6 the current service charges and surcharges are adequate or should  
7 be changed. The methodology utilized in developing this cost  
8 comparison shall include:

9 1. A system including the distribution of the cost  
10 of operation and maintenance of the treatment works of the WPC  
11 Utility to each user class in proportion to such user's contribu-  
12 tion to the total waste loading of the treatment works. Factors  
13 such as strength, volume, and delivery flow characteristics shall  
14 be considered and included as the basis for the user's contribu-  
15 tion to insure a proportional distribution of operation and  
16 maintenance and replacement costs to each user class.

17 2. Total annual service charges and surcharges  
18 collected from each individual user class shall be deemed  
19 sufficient if said charges have generated during the prior  
20 operating period sufficient revenue to offset the cost of all  
21 treatment works operation and maintenance provided by the  
22 Utility, including cost of management, system repair and re-  
23 placement, debt retirement and other costs incidental to the  
24 Utility Operation attributable to such class.

|   | per pound    |

All users discharging wastes into the system requiring continuing surveillance sampling and waste evaluation shall be subject to a monthly fixed charge to cover the costs of such services in the amount of \$82.20 per discharge point.

SECTION 2. That this Ordinance is adopted after a public hearing held pursuant to I.C. 36-9-23-26 and due notice of said hearing published pursuant to I.C. 5-3-1.
